

7.1 Biodegradable cleaners

BIOCLEAN Biodegradable cleaner for bathrooms & kitchens

PROPERTIES

General purpose biodegradable cleaner, free of allergens, ammonia, phosphates and petroleum derivatives. Friendly to human and the environment, per the European directive EC 648/2004. The specific directive governs the composition of detergents with respect to their biodegradability. It does not irritate hands and it does not cause any inhalation related problems during and after use.

A product with superior cleaning action that dissolves tough and oily stains while it does not affect sensitive surfaces. Spray just once and use a soft sponge to remove any dirt. Rinse the surface.

APPLICATIONS

Removes oils and grease, accumulated food waste, sauce, scum and ink as well as blood stains. It is ideal to re-

move accumulated waste around stove burners (pic.2) and ovens, as well as cookware and kettles, refrigerators, grills and silverware.

Remove pollutants from sanitary fixtures (pic.1) and tiles as well as polished and honed marble.

Essential in houses, restaurants and hotels, as well as hospitals, bakeries and yachts (does not harm the gel coat). It breaks down insect, bird and animal droppings and waste.

USE

Spray the areas you want to clean and wait for a few minutes. Rinse with water or, where necessary, scrub with a broom or a damp sponge. Use it also as an effective additive for mopping; dissolve 1 cup of cleaner into 3lt of water. It can be used in combination with a cleaning machine, a professional or residential one.
