

# HYDROSTOP PLASTER ELASTIC

Flexible, waterproofing cementitious plaster of 24 colors - GRAFIATO

## ■ PROPERTIES

Flexible and waterproofing, self cleaning top coat plaster, with grain size of up to 4mm. It contains new age, flexible and water repelling resins. Offers complete water repellency, per DIN 18550, high flexibility, unbreakable adhesion, unblocked breathability and water vapour permeability. Does not favour mold creation, and does not absorb atmospheric pollutants. Does not crack like regular plasters do and corrects construction defects up to 8mm per coat. Can be applied over cracked marble based, (but sound) plasters.

Easily applied by either hand or plastering machine. It participates as a topcoat render to the External Thermal Insulation Composite System for buildings THERMOSEAL of DUROSTICK and is in compliance with the requirements of EAD 040083-00-0404, ETA 13/0006 and ETA 13/0007.

Classified GP: CSIII/Wc2 per EN 998-1.

Can be colored in 24 colors by adding the 250gr bags of pigments in powder form, DUROCOLOR POWDER-C of DUROSTICK into the mixing water.

## ■ CONSUMPTION

2.0kg/m<sup>2</sup>/mm thick coat.

## ■ PACKAGING

Paper bag of 25kg on 1,500kg pallet.
