

# DS-50

## Reinforcing polyester fabric for waterproofers

### ■ PROPERTIES - APPLICATIONS

Very strong reinforcing (thin) polyester fabric, of 50gr/m<sup>2</sup> weight. It is applied for the reinforcement (spot or complete) of brushable elastomeric waterproofing products, such as TECHNOPROOF, No39, DS-220, and HYDROSTOP-PU of DUROSTICK, when they are applied for difficult waterproofing applications, such as terraces with extended, hairline and regular cracks.

Provides ease of application and layering, increases tensile strength, protects against cracking, and extends the life of the final waterproofing coat(s). Also available in 10cm and 20cm wide strips for spot reinforcement of joints, cracks, and floor-to-wall joints.

### ■ PACKAGING

1m x 50m roll

Sizes of available tapes: 10cm x 10m, 10cm x 20m, 20cm x 10m, 20cm x 20m
