

BIOCLEAN

Biodegradable dishwashing liquid

PROPERTIES

Biodegradable cleaner without ammonia, phosphates, and petroleum products per the European directive EC 648/2004 governing detergents in terms of their biodegradability. It is gentle on the hands and has a high cleansing effect.

APPLICATIONS

Thanks to its unique composition, it easily dissolves grease, sauces and all food residues leaving sparkling clean cookware, dishes and utensils. The foam that it generates, even when using but a small amount of the dishwashing liquid BIOCLEAR, is so rich that it is sufficient to wash large quantities of soiled items.

ADVANTAGES

- Dissolves fats
- Removes unpleasant odors
- Smooth texture
- Easy rinsing, leaving no residue on utensils

- Shiny cleanliness and shine on dishes and utensils.

STORAGE

Avoid direct exposure to sunlight, very high temperatures and frost. Stored in this way, the product is maintained for at least 24 months from production date.

SAFETY DIRECTIONS

The product needs no hazard labeling under current European and National legislation. However, it is recommended to keep away from the reach of children. If swallowed, seek immediate medical advice and show the container or label.

PACKAGING

- Carton box with 18 pcs of 500ml each one
- 5lt container (special order)

The technical specifications and directions of use contained in this technical brochure are the results of the knowledge and experience of the company's research and development department, as well as from the real-life applications of the product. The recommendations and suggestions regarding the use of the products are made without guarantee since the respective conditions during their application are beyond the control of the company. For this reason, it is the user's responsibility to make sure that the product is suitable for the intended application as well as the application conditions of the project.
