

# D-19 GRAFFITI REMOVER

Powerful graffiti remover

## PROPERTIES

Extra powerful graffiti remover.

It cleans surfaces made of metal and glass, concrete as well as plaster, marble, tiles and stone. It removes graffiti quickly and easily without leaving any stains and without damaging the painted surface. It cleans walls soiled with spray paint, permanent markers or ball point pens in areas such as children's rooms (providing there is adequate ventilation in the room).

## APPLICATIONS

D-19 GRAFFITI REMOVER of DUROSTICK is suitable for almost any surface. Cleaning graffiti from school surfaces and university facilities or public and private buildings with D-19 GRAFFITI REMOVER is particularly cost effective compared to repainting.

## USE

D-19 GRAFFITI REMOVER is a very powerful cleaning agent. During application and even rinsing, the use of protective gloves is necessary. It

is recommended, before any application on any painted surface, to spot check the product. Spray from a distance of 20-25cm and scrub with a soft cloth or a sponge, depending on the surface. After removing the graffiti, rinse the surfaces with clean water. If it is necessary, repeat the process on porous surfaces with bold and persistent stains.

## CONSUMPTION

Approximately 500ml/3m<sup>2</sup> of surface.

## STORAGE

Store in places with low humidity, away from any heat source, for at least 36 months from production date.

## SAFETY DIRECTIONS

The product is classified as harmful. It is recommended to keep away from the reach of children and apply it in well ventilated areas.

Before use, refer to the cautions on the product packaging or the Material Safety Data Sheet.
