

DRAIN CLEANER

Drain cleaner for pipes and traps

PROPERTIES

Drain liquid with effective action, in concentrated form. Dissolves within a few minutes soap residues, bristles and organic fats from the sewer pipes, keeping them clean. It does not damage stainless steel sinks and metal traps made of copper, lead, polyethylene and PVC. Its periodic use reduces the unpleasant odors that come from residues on the walls of the pipes.

ADVANTAGES

- It does not cause fumes.
- It does not blacken the drain grille.
- It does not create stains in contact with nickel valves, sink or bathtub.
- It does not damage the piping.
- Eliminates mechanical means (suction cups, steel, etc.).

APPLICATIONS

DUROSTICK DRAIN CLEANER is necessary for drain systems of houses, restaurants, hotels, hospitals, factories, etc. Used in sinks, bathtubs, showers, sinks, floor siphons.

USE

1. Preparation of application

After wearing plastic gloves and goggles, hold and secure the container in a vertical position. Then press the special safety cap, turning it to open it.

2. Application

Remove as much as possible standing water (if any) of the sink or washbasin. Empty an amount equal to 500-1000ml for immediate blockage of clogged drains and siphons and half the amount for maintenance (periodic use). Leave it on for about 20 minutes and let plenty of hot water run. It is recommended that the room be ventilated, due to odors produced during use.

HELPFUL TIPS – NOTES

- The instructions for use and precaution stated on the package must be followed carefully.
- Do not use in combination with other products.

CONSUMPTION

500-1000ml, depending on pipe diameter and the amount of accumulated waste.

DRAIN CLEANER

Drain cleaner for pipes and traps

STORAGE

Store in shaded places, away from any heat source, for at least 24 months from production date.

SAFETY DIRECTIONS

The product is classified as corrosive. It is recommended to keep away from the reach of children and applied in well ventilated areas. Before use, refer to the cautions on the product packaging or the Material Safety Data Sheet.

PACKAGING

Carton box with 15pcs of 500ml (750gr)
 Carton box with 15pcs of 1000ml (1.500gr)

TECHNICAL SPECIFICATIONS

Form - Color	Concentrated liquid - Transparent
pH	>13
Odor	Light
Oxidizing properties	No
Organic volatiles	Does not contain
Solubility in water	100%
