

DUROSTICK DUROCOLOR

Color creations in 20ml syringe packaging

PROPERTIES

High quality ready made pigments in convenient 20ml syringe packaging each one.

Create the colors you desire through the color chart of the DUROCOLOR system, with 120 color recipes or follow your inspiration and create your own unique color.

Using the DUROCOLOR coloring system one can readjust the original color of choice and progressively evolve it. Color all emulsion and acrylic paints, elastomeric paints and water-proofers, water based enamels, epoxy base paints, as well as the decorative styling stuccos MATIZ Stucco Decorativo, STUCCO VIVERE and the pressed screed in paste form DS-258 DECO MICRO FLEX. Combine the white pigment with solvent-free epoxy and acrylic resins to create unique styles

The technical specifications and directions of use contained in this technical brochure are the results of the knowledge and experience of the company's research and development department, as well as from the real-life applications of the product. The recommendations and suggestions regarding the use of the products are made without guarantee since the respective conditions during their application are beyond the control of the company. For this reason, it is the user's responsibility to make sure that the product is suitable for the intended application as well as the application conditions of the project.
