

DUROFRESH

Multipurpose powerful cleaning agent

PROPERTIES

Active and low-foaming cleaning agent suitable for cleaning of all washable surfaces. Ready to use, it gives a feeling of freshness to the areas where it is applied, thanks to its lemon-fresh scent. With a high content of the active substance Benzalkonium Chloride.

APPLICATIONS

DUROFRESH is ideal for the cleaning of both commercial and residential surfaces and spaces. With powerful cleaning action, it is ideal for daily use in all areas of the household, especially the bathroom and kitchen areas. It is also suitable for cleaning basements, closets, attics, warehouses, pet areas, etc. It quickly and effectively removes even the most stubborn pollutants, leaving no residue, while removing unpleasant odors. Suitable for all hard surfaces except varnished wood. Essential in industries, businesses, hotels, restaurants, cafes, entertainment centers, gyms, and other commercial facil-

ities, providing freshness and hygienic cleanliness in public or non-public areas where it is applied (available in convenient packaging of 5lt and 20lt containers via special order). Particularly effective for cleaning and removing unpleasant odors in toilets and garbage bins (public and household alike), waste collection vehicles (garbage trucks), as well as for cleaning the public markets and fish markets roads and streets. Suitable for the regular cleaning of public toilets as well as sewers in densely populated areas that is also considered necessary.

USE

For spot cleaning: Using a spray bottle (especially for the 5lt and 20lt containers), spray from a distance of 20- 25cm and allow for the product act for 5 minutes and rinse with plenty of water (showers, bins, and all other areas/ surfaces that can be rinsed). Alternatively, and depending on the application and the surface, wipe the surface after 5 minutes with a clean, damp cloth and al-

low for it to dry without rinsing. During application, the use of protective gloves is recommended.

For the general cleaning of external or washable surfaces: Dilute the product with clean water at a ratio of 1:1 in a bucket and soak all surfaces. It is recommended to use a short pile, stiff broom for easy scrubbing, and effective cleaning. It can be applied quickly and efficiently with a pressure washer. For the daily care of floor surfaces, it is recommended to add 50ml of the product in 4lt of water in the mopping water. The mixture needs no rinsing. For the effective cleaning of sewer systems and public toilets, allow the product to act for at least 5-10 minutes. Follow by thoroughly rinsing all surfaces with water. For waste collection vehicles and streets, apply the same cleaning procedures that the local cleaning agencies are using by adding DUROFRESH in their pressure washing machines and the street cleaning vehicles.

STORAGE

Store in shaded places, for at least 36 months from production date.

SAFETY DIRECTIONS

The product is classified as corrosive. It is recommended to keep away from the reach of children and apply it in well ventilated areas. Before use, refer to the cautions on the product packaging or the Material Safety Data Sheet.

NOTE

The insufficient refuse collection by the municipalities from public waste bins, particularly during the summer months, results in troublesome situations. It results in both the creation of intense foul odors and the infestation of germs and bacteria due to the concentration of insects and rodents. The waste collection vehicles therefore are also infested with germs and bacteria, making their cleaning an absolute necessity.

PACKAGING

Carton box with 18 pcs of 750ml each one 5lt, 20lt container (special order)

TECHNICAL SPECIFICATIONS	
Form - Clear	Liquid - Light yellow
Density	1.00±0.05kg/lt
