

DUROSTICK SILICONE SPRAY

Silicone based lubricant

PROPERTIES

Clean lubricant that does not harden over time. It provides high waterproofing and nonstick/release properties. It is durable to high and low temperatures, oxidation and corrosion. It does not attract dust nor does it leave stains. It maintains rubber parts in good condition and does not allow them to freeze, dry or wear out. Prevents sticking, seizing, and the cricking sounds caused by surface friction.

APPLICATIONS

The SILICONE SPRAY of DUROSTICK is necessary for the smooth operation of sliding car sunroofs car seat rails and drawer slides etc. Suitable as a release agent for plastic and metal parts from their formwork. Protects inflatable boats from salt, as well as the boat fenders. It prevents materials sticking to conveyors, troughing idles, guides and pulleys. It waterproofs surfaces like awning fabrics, umbrellas, tents and boat awnings made of canvas.

It removes moisture and forms a water repellent membrane on electrical cable contacts, relay switches, outboard engines as well as car and motorcycle engines. Necessary during electrical installations for the easy feeding of electrical wiring through conduits.

USE

Shake well before use. On clean surfaces, free of dust and dirt, spray evenly from 20-30cm away. Remove any excess product using a soft cloth.

STORAGE

Store in cool and shaded places, for at least 36 months from production date.

SAFETY DIRECTIONS

The product is classified as extremely flammable. It is recommended to keep away from the reach of children. Before use, refer to the cautions on the product packaging or the Material Safety Data Sheet.

DUROSTICK SILICONE SPRAY

Silicone based lubricant

PACKAGING

Carton box with 12 pcs of 400ml each one

TECHNICAL SPECIFICATIONS	
Form - Color	Low viscosity liquid - Transparent
Density	0.60±0.05kg/lt
