

PROFESSIONAL CARTRIDGE GUN

Heavy duty

■ PROPERTIES

Cartridge gun that is extremely durable to constant use. It features a heavy-duty trigger and release mechanism. It stands above ordinary silicone guns due to its specially designed trigger and reinforced construction. Its construction makes it suitable for easy applications of especially thick and viscous materials.

■ APPLICATIONS

The heavy-duty PROFESSIONAL CARTRIDGE GUN of DUROSTICK is ideal for easy application of polyurethane sealants and adhesives as well as acrylic putties and silicones.

Due to its exceptional strength, it is necessary to use it with the BLANK CARTRIDGE of DUROSTICK to easily apply sanded DUROSTICK grouts in dozens of applications, such as grouting absorbent decorative bricks, rustic tiles, cotto, honed marble etc. It ensures nonstop, everyday work without interruption and problems

■ USE

Pull the piston back and place the cartridge into the gun. Make sure to cut the threaded tip of the cartridge before you insert it into the gun. Thread the nozzle and cut it to the appropriate length to get the

desired thickness of the sealant. Continue by squeezing the trigger to apply.

■ NOTE

DUROSTICK's Professional Cartridge Gun has been tested for, at least, 3000 hours of work, without any problems or failures.
